

Bird Watching Journal

Color our Basic Songbirds to match the birds that you see. Then record the information about your birds in the spaces provided. If your bird is not at all like ours, then draw your own bird in the blank space provided at the bottom of your journal page. (Print as many copies of this page as you would like, then 3-hole punch or staple them to create your very own journal.)

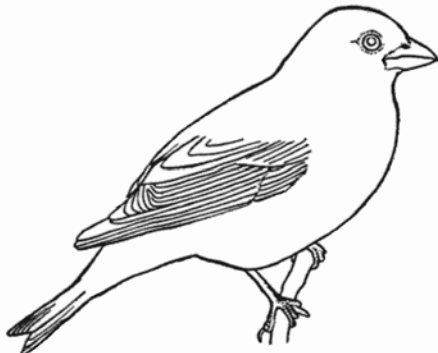

Name of Bird: _____

Date first seen: _____

Identifying Markings: _____

What type of seeds did it eat? _____

How many of this kind of bird did you see? _____
